DISCARDED PIANOS

Are the **ONLY** Pianos manufactured on the improved and now celebrated Screw-Stringer system, invented and patented by the Mason & Hamlin Co. in 1883. This invention is the greatest improvement in Pianos in twenty-five years, and owing to it the Piano is but slightly affected by trying atmospheric conditions, and does not require **one-quarter** as much tuning as Pianos generally.

In all respects these Pianos illustrate the same

HIGHEST STANDARD OF EXCELLENCE

which has always characterized the Mason & Hamlin Organs, and won for them **HIGHEST AWARDS** at **all** Great World's Fairs since that of Paris, 1867.

No one contemplating the purchase of a Piano should fail to examine these instruments.

Write for particulars. Illustrated Catalogues **free**.

ARE THE HIGHEST
OF ALL
HIGH GRADES.

Warranted Superior to any Bicycle

of Price.

Read the following opinion of one of
the most prominent American dealers
who has sold hundreds of these wheels:

RICHMOND, Va., Oct. 2, 1894.

Indiana Bicycle Co., Indianapolis, Ind:

Gentlemen: The Waverley Scorchers and Belle came to hand yesterday. We are afraid you have sent us the high-priced wheel by mistake. You can't mean to tell us that this wheel retails for \$85? We must say that it is, without exception, the prettiest wheel we have ever seen, and, moreover, we have faith in it, although it weighs only 22 lbs., for of all Waverleys we have sold this year and last (and you know that is a right good number), we have never had a single frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high grade, so called, that we sell. We congratulate ourselves every day that we are the Waverley agents.

Yours truly,

WALTER C. MERCER & CO.

Are you looking for the best
Bicycle that money will buy, or do
you want to spend the most money
you can, with the expectation that
price makes the wheel? If the
former, buy a Waverley.

PREFACE.

THE publishers of this book are fully aware that it was long since written "Of the making of many books, there is no end;" yet we do not believe that the Scripture worthy desired to imply that of the making of useful books there should be an end. This volume is prepared in answer to the repeated query, "Who is the Town Clerk in the Town of" or a desire to know the names of the Chairmen of the various Boards of Selectmen throughout the Commonwealth or some other item of town and city knowledge. Hitherto no such information could be obtained in any single volume. The heads of librarians and others were racked to answer, yet in many cases, the only way was to write to the Postmaster or to address the official, as such, letting his cognomen remain in the No Name series. To compile this volume the reports of the State, cities and towns have been consulted, aggregating many hundred pamphlets and books, not to mention the thousands of letters and postal cards that have been sent in the pursuit of information. No matter how apparently insignificant the fact desired, it has been run down that we might have it right here, until within the covers of one volume we have gathered more information concerning the Massachusetts of to-day than was ever thus collected and collated before. The matter, thus brought together, goes sufficiently beyond any book of similar character to make for itself a special place. We have not sought to prepare a volume descriptive of the State of yesterday, but emphatically of this year of Grace, 1895. Though in each succeeding volume we shall aim to have one introductory bit of lore not to be found elsewhere, such as the History of the Electoral College of this Commonwealth, found in this number, and which is owed to the kindness of State Librarian, C. B. Tillinghast.

There must be No. 1 of all things, good or bad. We hope this may prove the first of a long series of books which, as the years go by, will tell the story of Massachusetts to all who care to know. Naturally, as a beginning, it is experimental. The question constantly has been, not what shall we put in, but what can we leave out. Again, in reducing the compass of State reports, we have sought brevity, possibly at the expense of desired detail. To what extent we have erred in this respect we shall never know unless patrons inform us. The state publishes thousands of pages which may or may not be read by any besides the experts or those particularly interested in the matter under consideration. For the sake of the general reader we have boiled whole volumes down to the least possible space, knowing that those who desire greater detail can get the

reports themselves at the State House. The data that we have collated concerning the banks of the Commonwealth were never thus gotten together before. Not even the directories of cities have given what we here present. The annual town reports are not so full of detail concerning the very towns themselves as is this volume now in your hands. What possible fact about any city or town in Massachusetts is not found here? Please ask yourself this question and seek an answer here.

Nothing is perfect. You will find errors, but as you read and find matters not to your liking, please make a note and inform the publishers. Again, if we have left out what you think ought to be here let us know that also. If we have printed what you think could with profit be omitted, be kind enough to acquaint us.

In conclusion, this book could never have been prepared without the kindest consideration of hundreds of people who have been consulted many times and oft. The almost uniform courtesy with which our inquiries have been treated is a glorious tribute to the brotherhood of man. Our thanks, hereby extended, are due to hundreds of Town and City Clerks, to many Postmasters who, whether Republican or Democrat, seem to be veritable Jobs in patience, to the scores of Bank officials who have cheerfully responded with data, and in fine, to every one who has written a letter or stated upon a postal what we desired to know. By name we would like to thank Secretary of State Wm. F. Olin, Sergeant-at-Arms J. G. B. Adams, Clerks E. A. McLaughlin and H. T. Coolidge of the House and Senate, respectively, and their exceedingly obliging assistants for courtesies and facilities, also to State Librarian Tillinghast for the use of the store of information at his command, and for valuable suggestions. Nor should we forget the heads of other departments, at the State House, and their affable clerks, for information given.

This volume goes forth to the more than two million dwellers in this Commonwealth with the hope that it may serve as a labor saver in the work that they have to do and in doing which there has come to this state her reputation for thrift and Yankee ingenuity. If it answers this purpose, to a large extent, the design of the publishers will have been carried out.

THE ELECTORAL COLLEGE.

A COMPLETE LIST AND RECORD OF THE PRESIDENTIAL ELECTORS
OF MASSACHUSETTS AND THEIR ACTION.

PREPARED BY C. B. TILLINGHAST, STATE LIBRARIAN.

In view of the fact that no record has been preserved at the State House of the meetings of the Electoral Colleges of Massachusetts for the first ten elections of President, the following complete list of the Electors and statement of the various methods by which they were chosen, and their organization and action, may prove of interest, and possess a positive value as a contribution to the political history of the Commonwealth. There have been twenty-seven elections of President, and it will be seen that at fifteen of them the vote of Massachusetts is recorded in favor of the successful candidate. At the remaining twelve elections it was recorded as follows: 1800, John Adams; 1808, Charles Cotesworth Pinckney; 1812, De Witt Clinton; 1816, Rufus King; 1828, John Quincy Adams; 1832, Henry Clay; 1836, Daniel Webster; 1840, Henry Clay; 1852, Winfield Scott; 1856, John C. Fremont; 1884, James G. Blaine; 1892, Benjamin Harrison.

The Federal Constitution provided that the "ratification of the conventions of nine States shall be sufficient for the establishment of this Constitution between the States so ratifying the same." Massachusetts was the sixth in order, the date of its ratification being Feb. 6, 1788, and New Hampshire was the ninth, the date being June 21, 1788. It may be said in passing, that Rhode Island and North Carolina not having, at the date of the first election for President, ratified the Constitution, did not vote, and New York lost its vote because the Legislature could not agree upon any plan for the choice of Electors.

The Congress of the Confederation passed a resolution Sept. 13, 1788, directing that the choice of Electors of President and Vice-President should take place on the first Wednesday of January, 1789, and under this resolution the election of the first President took place. Under the Constitution the method of choosing the Electors was left to the determination of the Legislatures of the several States, and it will be seen that in Massachusetts, as in several of the other States, it was several years before there was any settled method.

1789.—The first Electors from Massachusetts were chosen under a legislative resolve of Nov. 19, 1788, "For organizing the Federal Government." This divided the State into eight districts for the choice of Representatives in Congress and Presidential Electors. Two candidates were chosen by the people in each district, and from these the General Court by joint ballot in convention selected one. Two additional Electors were chosen by the Legislature from the people at large. The candidates were chosen by the people Dec. 18, 1788, and the choice was made by the Legislature Jan. 7, 1789.

The Electors, with their residence and the counties composing their several districts, were as follows:

William Cushing of Scituate, at large.

William Shepard of Westfield, at large.

Caleb Davis of Boston, Suffolk.

Samuel Phillips of Andover, Essex.

Francis Dana of Cambridge, Middlesex.

Samuel Henshaw of Northampton, Hampshire and Berkshire.

William Sever of Kingston, Plymouth and Barnstable.

Moses Gill of Princeton, Worcester.

Walter Spooner of New Bedford, Bristol, Dukes and Nantucket.

David Sewall of York, Me., York, Cumberland and Lincoln.

The Electoral College met at the Old State House, Feb. 4, 1789, and William Sever was chosen to preside. Its vote was cast unanimously for George Washington of Virginia and John Adams of Massachusetts. The Electors did not designate the persons voted for as President and Vice-President until after the adoption of the Twelfth Amendment to the Constitution of the United States in 1804.

1792.—The Electors for the second Presidential election were chosen under a Legislative resolve of June 30, 1792, which divided the State into four districts, the first comprising Suffolk, Essex and Middlesex counties, to be entitled to five Electors; the second comprising Hampshire, Berkshire and Worcester counties, and entitled to five Electors; the third to include Plymouth, Bristol, Barnstable, Dukes and Nantucket, and to have three Electors, and the Fourth District to be composed of the Maine counties and to be entitled to three Electors. It will be noticed that no Electors were chosen at large by this plan. The Electors were chosen by the people at an election held Nov. 2, 1792, and in cases where there was no choice by the people the vacancies were filled by joint ballot of the Legislature, Nov. 14, 1792. A session of the General Court to fill these vacancies was held at Concord, for the reason that the small-pox was at that time prevalent in Boston.

Bradford, in his History of Massachusetts, volume 3, page 36, states that it was generally admitted at this time that while the Legislature was given the constitutional right to prescribe the *mode* in which the Electors should be chosen, the choice was to be made by the people themselves. It was deemed advisable to divide the State into districts for the purpose in order that the people might be better acquainted with the persons for whom they were to vote. For several succeeding elections, as will be seen, the method of choosing the Electors varied. Sometimes they were chosen by districts, sometimes by a general ticket, sometimes the Legislature decided to make the choice itself. The political complexion of the times had its influence in determining the methods followed.

At the session of Congress preceding this election a general law was passed governing the method of procedure of the Electoral Colleges, one provision of which was that the Executive authority of each State shall certify to three lists of the Electors. Governor Hancock was very jealous of any infringement by the General Government upon his prerogative as Governor, and he sent a message to the Legislature to the effect that while he was willing to perform the duty, he considered the mandatory requirement an improper one for the General Government to make upon the Supreme Executive of an independent State. The following is the list of the Electoral College as finally constituted, those marked by stars having been chosen by the Legislature in cases where the people failed to elect:

Azor Orne of Marblehead, First District.

Francis Dana of Cambridge, First District.

Increase Sumner of Roxbury, First District.

*Thomas Dawes of Boston, First District.

- *Samuel Holten of Danvers, First District.
- *Moses Gill of Princeton, Second District.
- *William Shepard of Westfield, Second District.
- *Thompson Joseph Skinner of Williamstown, Second District.
- *Dwight Foster of Brookfield, Second District.
- *Ebenezer Mattoon, Jr., of Amherst, Second District.
- Walter Spooner of New Bedford, Third District.
- William Sever of Kingston, Third District.
- *Solomon Freeman of Harwich, Third District.
- *Peleg Wadsworth of Portland, Me., Fourth District.
- *Daniel Cony of Hollowell, Me., Fourth District.
- *Nathaniel Wells of Wells, Me., Fourth District.

The Electoral College met at the Old State House, Wednesday, December 5, 1792. William Sever presided, and the Electors cast their ballots unanimously for George Washington of Virginia and John Adams of Massachusetts. Major John Tyler was appointed messenger to carry the votes to Philadelphia, then the seat of the National Government.

1796.—By an act of June 26, 1794, the State was divided into fourteen districts for the election of Representatives to Congress, and by a resolve of June 13, 1796, the people were to choose one Presidential Elector from each district and the Legislature was to choose two at large, as well as to fill all deficiencies caused by the failure of the people to elect. The November session of the Legislature in this year, by a resolve dated Nov. 23, 1796, gave the Electors power to fill any vacancies in their body. The measure was signed by Samuel Adams, then Governor, but he subsequently sent two messages to the Legislature requesting the privilege of annulling his approval and erasing his signature, on the ground that, in his opinion, it would establish a dangerous precedent, and that it was the spirit and intent of the Constitution that the vacancies should be filled by the Legislature. The Legislature, however, refused to allow him to withdraw his signature, and the proviso that was obnoxious to Governor Adams survives in the Public Statutes to this day.

The Electors chosen were as follows:

- *Edward Hutchinson Robbins of Milton, at large.
- *Increase Sumner of Roxbury, at large.
- *David Rosseter of Richmond, First Western District.
- *Ebenezer Hunt of Northampton, Second Western District.
- Ebenezer Mattoon of Amherst, Third Western District.
- Joseph Allen of Worcester, Fourth Western District.
- Ebenezer Bacon of Attleboro, First Southern District.
- *William Sever of Kingston, Second Southern District.
- *Elisha May of Attleboro, Third Southern District.
- Thomas Dawes of Boston, First Middle District.
- *Elbridge Gerry of Marblehead, Second Middle District.
- *Samuel Holten of Danvers, Third Middle District.
- Samuel Phillips of Andover, Fourth Middle District.
- *Thomas Rice of Wiscasset, Me., First Eastern District.
- Stephen Longfellow of Gorham, Me., Second Eastern District.
- Nathaniel Wells of Wells, Me., Third Eastern District.

Those chosen by the Legislature are indicated by stars.

The Electoral College met at the Old State House, Wednesday, Dec. 7, 1796, and the ballot for President resulted as follows: John Adams of Massachusetts sixteen, Thomas Pinckney of South Carolina thirteen, Samuel Johnson of North

Carolina two, and Oliver Ellsworth of Connecticut one. Hon. Alexander Campbell of Steuben, Me., was chosen Messenger to carry the vote to Philadelphia.

1800.—The Electors in 1800 were chosen by the Legislature under a resolve of June 6, 1800, which provided that there should be one for each Congressional District and two at large. The Electors were empowered to fill vacancies in their own number by a resolve of Nov. 15, 1800. The following Electors were chosen Nov. 13, 1800:

Samuel Phillips of Andover, at large.

Edward Hutchinson Robbins of Milton, at large.

David Rosseter of Richmond, First Western District.

Ebenezer Hunt of Northampton, Second Western District.

John Hooker of Springfield, Third Western District.

Joseph Allen of Worcester, Fourth Western District.

Walter Spooner of New Bedford, First Southern District.

William Sever of Kingston, Second Southern District.

William Baylies of Dighton, Third Southern District.

Thomas Dawes of Boston, First Middle District.

Francis Dana of Cambridge, Second Middle District.

Samuel Sewall of Marblehead, Third Middle District.

Theophilus Bradbury of Newburyport, Fourth Middle District.

Samuel Sumner Wilde of Warren, Me., First Eastern District.

Lemuel Weeks of Falmouth, Me., Second Eastern District.

Andrew Pepperell Fernald of Kittery, Me., Third Eastern District.

This method of the choice of the Electors by the Legislature proved an unpopular one, and there were loud complaints against it. It was adopted to secure the undivided vote of the State for Mr. Adams, as a majority of the Legislature was known to be in his favor. If the people had voted by districts several of the Electoral votes would probably have been given to Mr. Jefferson.

The Electoral College met December 3, 1800, in the Senate Chamber of the present State House, all of its predecessors having met in the Old State House. The vote was cast unanimously for John Adams of Massachusetts and Charles Cotesworth Pinckney of South Carolina.

1804.—In 1804 the Electors were chosen by the people, under a resolve of June 15, 1804, the entire number upon one ticket. This was the first choice of the Electors upon a general ticket. This plan was supposed to have been adopted instead of the choice by separate districts, to favor the interests of Mr. Adams, but those who proposed the plan were much surprised and disappointed at the result. It was a time of great political excitement, and there seems to have been considerable independent voting, as the Jefferson ticket was chosen. The result would probably have been different if the district system had prevailed.

The Electoral College was composed as follows:

James Sullivan of Boston, at large.

Elbridge Gerry of Marblehead, at large.

James Bowdoin of Boston, Suffolk District.

John Hathorne of Salem, Essex South District.

Thomas Kittredge of Andover, Essex North District.

James Winthrop of Cambridge, Middlesex District.

John Whiting of Lancaster, Worcester North District.

Timothy Newell of Sturbridge, Worcester South District.

Jonathan Smith, Jr., of West Springfield, Hampshire South District.

Edward Upham of New Salem, Hampshire North District.

John Bacon of Stockbridge, Berkshire District.

William Heath of Roxbury, Norfolk District.
 Josiah Deane of Raynham, Bristol District.
 James Warren of Plymouth, Plymouth District.
 John Davis of Barnstable, Barnstable District.
 John Woodman of Buxton, Me., York District.
 Charles Turner of Turner, Me., Cumberland District.
 Thomas Fillebrown of Hallowell, Me., Kennebeck District.
 John Farley of Newcastle, Me., Lincoln District.

The Electoral College met Wednesday, December 5, 1804, and cast its unanimous vote for Thomas Jefferson of Virginia for President and George Clinton of New York for Vice-President. Mr. Kittredge of Newburyport was chosen Messenger to carry the vote to Washington.

1808.—The choice of Electors in 1808 is one of the most interesting in our history. The Jeffersonian ticket, with Gov. Sullivan at its head, had swept the State by popular vote in 1804. Both branches of the Legislature were now with a Federal majority. At the June session the Legislature neglected to adopt any plan for the choice of Electors. Before proroguing the Legislature, Gov. Sullivan sent in a long message urging the adoption of some plan, and stating his strong opposition to the choice by the Legislature which the postponement evidently contemplated. At the opening of the November session he again stated in his message his opposition to a choice by the Legislature, and strongly urged an election by the people, but the Legislature decided by a joint order to proceed to the choice themselves. This method removed any opportunity for the Governor to veto the plan, as it did not go to him for approval. After the choice had been made a protest signed by several members was spread upon the journals. A memorial was sent to Congress charging informality in the appointment, on the ground that the choice had not been laid before the Governor and that his certificate did not accompany the return. No action was however taken and the matter dropped. The college was composed as follows:

Caleb Strong of Northampton, at large.
 Francis Dana of Cambridge, at large.
 John Brooks of Medford, Suffolk District.
 Moses Brown of Beverly, Essex South District.
 William Bartlett of Newburyport, Essex North District.
 Ebenezer Bridge of Chelmsford, Middlesex District.
 Josiah Stearns of Lunenburg, Worcester North District.
 Benjamin Heywood of Worcester, Worcester South District.
 John Hooker of Springfield, Hampshire South District.
 John Barrett of Northfield, Hampshire North District.
 Daniel Dewey of Williamstown, Berkshire District.
 Ebenezer Warren of Foxboro, Norfolk District.
 Samuel Tobey of Berkley, Bristol District.
 Joshua Thomas of Plymouth, Plymouth District.
 Lemuel Williams of New Bedford, Barnstable District.
 Andrew Pepperell Fernald of Kittery, Me., York District.
 Samuel Freeman of Portland, Me., Cumberland District.
 Samuel Sumner Wilde of Hallowell, Me., Kennebeck District.
 Jeremiah Bailey of Wiscasset, Me., Lincoln District.

They were chosen Nov. 14, 1808. The College met Tuesday, Dec. 6, and Wednesday, Dec. 7, its unanimous vote was cast for Charles Cotesworth Pinckney of South Carolina for President and Rufus King of New York for Vice-President.

1812.—The Electors of 1812 were chosen under a resolve of Oct. 22, 1812, which provided six districts. No. 1, including Suffolk, Essex and Middlesex counties, to choose five Electors; No. 2, to include Worcester, Hampshire, Franklin, Hampden and Berkshire counties, to choose six; No. 3, to include Plymouth, Bristol, Norfolk, Barnstable, Dukes and Nantucket Counties, to choose four; No. 4, composed of York, Cumberland and Oxford counties, to choose three; No. 5, composed of Lincoln, Kennebeck and Somerset counties, to choose three, and No. 6, to include Hancock and Washington counties, to choose one Elector. The political majority of the Senate differed from that of the House, and this plan was agreed upon after prolonged discussion and the rejection of several proposed methods. The following is the list of Electors chosen by popular vote:

Harrison Gray Otis of Boston, District No. 1.
 Nathan Dane of Beverly, District No. 1.
 Jeremiah Nelson of Newburyport, District No. 1.

 †John Davis of Barnstable, Bristol District.
 †Joseph Woodbridge of Stockbridge, Berkshire District.

John Adams was chosen President of the College, and Wednesday, Dec. 7, 1820, the Electors cast their votes for James Monroe of Virginia for President. For Vice-President there were eight votes for Richard Stockton of New Jersey, and seven votes for Daniel D. Tompkins of New York. Col. S. D. Harris, late of the United States Army, was chosen Messenger to carry the vote to Washington.

1824.—The Electors were chosen this year under a resolve of June 8, 1824, by the people upon one ticket:

William Gray of Boston, at large.

†The three last named were chosen by the College to fill the vacancies caused by the following named members-elect, who were unable to attend: Joseph Woodbridge of Stockbridge, Joshua Head of Waldoboro, Me., and Samuel Sumner Wilde of Warren, Me.

†The four last named were chosen by the Electors to fill vacancies. In Hampshire South and Barnstable Districts there had been no choice, and Alden Spooner of New Bedford and Hugo Burghardt of Richmond, who had been chosen by the people, did not attend.

Levi Lincoln of Worcester, at large.

Thomas Lindall Winthrop of Boston, Suffolk District.

Nathaniel Silsbee of Salem, Essex South District.

Joseph Kittredge of Andover, Essex North District.

Augustus Tower of Stow, Middlesex District.

POSTAL INFORMATION.

Direct your mail matter to a post office, and if to a city, add the street and number or post office box of the person addressed. If you are not certain that the place to which you wish to send is a post office, inquire of the postmaster. Matter not addressed to a post office cannot be forwarded. To insure certainty in dispatch of mail, give the county in which the post office is situated, and *spell the name of the state in full*. Write or print your name and address, and the contents, if a package, upon the upper left-hand corner of all mail matter. This will insure its immediate return to you for correction if improperly addressed or insufficiently paid, and if it is not called for at its destination, it can be returned to you without going to the Dead Letter Office. If a letter, it will be returned free. Register all valuable letters and packages. Registry fee, eight cents, which, with the postage, must be fully prepaid. The name and address of sender must be given on the outside of the wrapper or envelope of all registered matter.

RATES OF POSTAGE.

First Class.—Letters, and all other written matter, whether sealed or unsealed, and all other matter sealed, nailed, sewed, tied, or fastened in any manner, so that it cannot be easily examined, **two cents per ounce** or fraction thereof. "Drop letters," two cents per ounce or fraction thereof, when mailed at letter carrier offices, and one cent for each ounce or fraction thereof at offices where free delivery by carrier is not established. Postal cards, one cent each. Postal cards are unmailable with any writing or printing on the address side, except the direction, or with anything pasted upon or attached to them, except an address tag or label.

Second Class.—The rate of postage on newspaper and periodical publications, when sent by publishers or news agents, is **one cent a pound** or fraction thereof, when sent by others than the publishers or news agents, **one cent for each four ounces** or fractional part thereof.

Third Class.—Printed matter in unsealed wrappers only (all matter enclosed in sealed envelopes notched on the sides or corners must pay letter rates), **one cent for each two ounces** or fraction thereof, which must be fully prepaid. This includes books, circulars, chromos, hand-bills, engravings, lithographs, music, pamphlets, photographs, proof sheets, and manuscripts accompanying the same, reproductions by the electric pen, hectograph, metallograph, papyrograph, and, in short, any reproduction, upon paper by any process, excepting handwriting and the copying press not in the nature of a correspondence. Limit of weight four pounds, except for a single book, which may weigh more. Third class matter must be fully prepaid, or it will not be forwarded.

Fourth Class.—All mailable matter not included in the three preceding classes which is so prepared for mailing as to be easily withdrawn from the wrapper and examined. Rate, **one cent per ounce** or fraction thereof. Limit of weight, four pounds; full prepayment compulsory.

SPECIAL DELIVERY.

By the affixing of a special delivery stamp of *ten cents*, in addition to the regular postage, any mail matter whatsoever will be delivered immediately after arrival to any point within the carrier limits of any free delivery office between the hours of 7 A. M. and 11 P. M., and within one mile of all other post offices between the hours of 7 A. M. and 9 P. M.

RATES OF POSTAGE TO CANADA AND MEXICO.

(The Dominion of Canada embraces all the British North American Provinces except Newfoundland.)

Letters and Postal Cards.—Same rates and conditions of prepayment of postage as for domestic letters and postal cards.

Other Matter.—Same rates and conditions of transmission as for matter for delivery within the United States, except that *all sealed packages* which evidently are not letters are excluded. Other matter must be so wrapped or enclosed as to permit their contents to be *easily* examined by postmasters or customs officials

Mexico.—All articles of every kind or nature which are admitted to the domestic mails of the United States are admitted under the same conditions and at the same rates to the mails of Mexico; *except* that articles of miscellaneous merchandise (fourth class matter) not sent as *bona fide* trade samples, are required to be sent by "parcels post" at the rate of *twelve cents per pound* or fraction thereof, with a "customs declaration," properly filled out, attached to it.

RATES OF POSTAGE TO FOREIGN COUNTRIES.

Letters five cents per half ounce or fraction thereof (fifteen grams being the postal equivalent of half an ounce).

Postal cards, two cents each.

Registration fee, eight cents.

Printed matter and samples of merchandise, one cent for each two ounces or fraction thereof.

MONEY ORDERS.

The fees charged for domestic money orders are as follows: For orders not exceeding \$2.50, 3 cents; \$2.50 to \$5, 5 cents; \$5 to \$10, 8 cents; \$10 to \$20, 10 cents; \$20 to \$30, 12 cents; \$30 to \$40, 15 cents; \$40 to \$50, 18 cents; \$50 to \$60, 20 cents; \$60 to \$75, 25 cents; \$75 to \$100, 30 cents.

INTERNATIONAL MONEY ORDERS.

The fees charged are as follows: For orders not exceeding \$10, 10 cents; from \$10 to \$20, 20 cents; from \$20 to \$30, 30 cents; from \$30 to \$40, 40 cents; from \$40 to \$50, 50 cents; from \$50 to \$60, 60 cents; from \$60 to \$70, 70 cents; from \$70 to \$80, 80 cents; from \$80 to \$90, 90 cents; from \$90 to \$100, \$1.

PERMISSIBLE WRITING.

No writing is permitted on third or fourth class matter except as follows: The name and address of sender on the outside or inside of package, preceded by the word "from." On the wrapper may also be written the names and number of articles enclosed. The sender is further allowed to mark a word or passage in a book or paper to which he desires to call special attention. He may also write a simple inscription or dedication upon the cover or blank leaves of a

book or pamphlet. There may be attached to articles of merchandise, by tag or label, a mark, number, name or letter for purpose of identification. Printed circulars may contain the written name of the sender, or of the addressee, and the date. Any other writing on third or fourth class matter will subject the package to letter rates of postage, and render the sender liable to a fine of ten dollars for each offense. Printed matter may be enclosed with fourth-class matter, but the whole package is subject to the rate of one cent per ounce or fraction thereof. Packages containing more than one class of postal matter will subject the whole to the rate of the highest class enclosed.

REFORWARDING.

Letters will be reforwarded from one post office to another upon the written request of the person addressed without additional charge for postage; but packages of third and fourth class matter cannot be forwarded or returned without new payment of postage.

LOTTERY MATTER.

No letter or circular concerning lotteries, so-called gift concerts, or other similar enterprises offering prizes, or concerning schemes devised and intended to deceive and defraud the public, for the purpose of obtaining money under false pretences, shall be carried in the mail. Any person who shall knowingly deposit or send anything to be conveyed by mail in violation of this section shall be punishable by a fine of not more than five hundred dollars nor less than one hundred dollars, with costs of prosecution.

POST OFFICES IN MASSACHUSETTS.

Offices in *italics* are Money Order offices; those that are also International are designated by the letter (I). Offices marked with (†) are authorized to issue Money Orders and for deposit of registered matter only. County seats are indicated by the letters (c. h.) in parenthesis; offices of which the postmasters are appointed by the President subject to confirmation by the Senate, and whose tenure is four years, are denoted by the figures 1, 2 or 3, indicative of the class to which they belong. Salaries of postmasters in Massachusetts at offices of the 1st class range from \$3000 to \$6000, of the 2d class \$2000 to \$3000, of the 3d class \$1000 to \$2000. Those having no figure prefixed are offices of the 4th class, postmasters at which are appointed by the postmaster general, and their term of office has no specified limit. Offices having letter carrier service are marked with the asterisk (*).

ELECTION RETURNS—1894.

See note on opposite page.

In Boston, for Congressmen and Senators, the aggregate party votes are shown, with number of candidates in small figures.

For Representatives in the Legislature, as many districts elect two and some three members, and as the City representation runs as high as forty-eight in Boston, only aggregate votes are given, with the number of candidates indicated in small figures.

MEDICAL EXAMINERS.

Each Medical Examiner in Suffolk county receives \$4000 from the county for services rendered, and the associate receives \$666; but if he serves more than two months he shall receive the same salary as the Medical Examiner, the amount to be deducted from the salary of him in whose stead he serves. Medical Examiners in other counties are feed as follows: for a view, without autopsy, \$5; for a view with autopsy, \$30; for travel at the rate of 10 cents a mile to and from the place of view. All Medical Examiners are entitled from the State to 20 cents each for the first twenty entries, in recording and returning the facts relating to deaths, and 10 cents for each subsequent entry in any year.

WEATHER BUREAU.

U. S. DEPARTMENT OF AGRICULTURE—STATE WEATHER SERVICE.

OFFICE, POST OFFICE BUILDING, BOSTON.

As a supplement to the work of the National Weather Bureau nearly all the States and Territories now have voluntary weather services, which serve as means for collecting and distributing valuable information. The six New England States are all under one management called the *New England Weather Service*. Its headquarters are at Boston with Mr. J. Warren Smith, Weather Bureau Director.

Monthly reports of temperature, precipitation, etc., are collected from about 90 voluntary observers in this State as per table below. The data are printed in the Monthly Weather Review published at Washington.

Weekly reports on the weather and its effect on the crops and the condition of the latter are collected on Mondays during the crop season from some fifty representative sections of the State, summarized, and issued in connection with reports from the rest of New England in printed form on Tuesdays. Twenty-five hundred copies are regularly distributed in Massachusetts through the coöperation of the State Board of Agriculture.

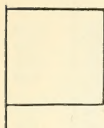

Regular forecasts of the weather and special frost, cold wave and storm warnings are telegraphed to a large number of places in the State at Government expense, and any place will be added to this list where action will be taken to have signal flags displayed for the benefit of the public. Special distribution of these forecasts in agricultural communities is made by telegraphing the message to some central point to a person furnished with logotypes and stamping outfit, who immediately reproduces the forecasts and sends by mail to all surrounding post offices that can be reached before night. The cards give the forecast of the probable weather for all the following day. At present Northampton is the only distributing centre in this State, the Postmaster there kindly making the distribution voluntarily. The system will, undoubtedly, soon be extended over the entire State.

THE HIGHWAY COMMISSION.

Office, Smith building, Court square, Boston.

Established June 10, 1893.

Commissioners: *Chairman,* Geo. A. Perkins, Cambridge; *Nathaniel S. Shaler,* Cambridge; *Clerk,* Wm. E. McClintock, Chelsea; in charge of office work, A. B. Fletcher; *Engineering Work,* both office and field, Charles Mills.

Selectmen of towns, mayor and aldermen of cities and county commissioners may petition the Commission for the making over of a road as a state highway. The Legislature of 1894 appropriated \$300,000 for constructing such highways. During the year 108 petitions were received. Of the appropriation, \$9,000 was set aside for office expenses, salaries, surveys, and general executive work; the balance was distributed by counties as follows:

Barnstable,	\$15,000.	Hampshire,	\$24,000.
Bristol,	20,000.	Middlesex,	25,000.
Berkshire,	24,000.	Nantucket,	20,000.
Dukes,	10,000.	Norfolk,	20,000.
Essex,	25,000.	Plymouth,	20,000.
Franklin,	24,000.	Suffolk,	20,000.
Hampden,	24,000.	Worcester,	30,000.

Total \$291,000.

Following is a list of roads, constructed or contracted for:

DUKES COUNTY.

EDGARTOWN TO COTTAGE CITY: Commission is working one route, nearest Cottage City, width of hardened way, fifteen feet. The road is conspicuous from the fact that to save the broken stone sinking immediately into the sand, cotton cloth of a cheap grade has been successfully used to separate. The grade is 4%.

TISBURY: connects towns of Tisbury, West Tisbury, Chilmark, and Gay Head with Vineyard Haven road; originally almost impassable on account of sand. Grading nearly all done, 4000 feet covered with broken stone. Maximum grade 4.4%.

BARNSTABLE COUNTY.

YARMOUTH ROAD: main highway extending from Boston to Provincetown, longest and in some respects the most important wagon road in Cape Cod. Sand makes the road a permanently bad one. One mile has been laid out but work has not yet been begun. Grade not established.

NANTUCKET COUNTY.

NANTUCKET TO SIASCONSET: owing to sand a very bad way. Two miles have been laid out and are being worked. About 7000 feet have been graded, covered with screened gravel and rolled, etc. Maximum grade 3%.

PLYMOUTH COUNTY.

MATTAPOISETT ROAD: old road from New Bedford to Cape Cod. One mile contracted for, one-quarter route has been graded. Maximum grade 4%.

MARION ROAD: continuance of above road. One mile laid out and contracted for. One-half mile graded, 300 feet covered with broken stone. Grade 2.8%.

PLYMOUTH ROAD: part of road from Boston to Provincetown; one mile laid out and contracted for, road graded and covered with crushed field stones. Grade 4.5%.

DUXBURY: part of preceding road. One-half mile laid out, grading half done. Grade 3.5%.

MARSHFIELD; part of foregoing road. One-half mile contracted for, grading done and half the roadbed covered with broken stone. Grade 4.6%.

WHITMAN; part of highway from Whitman to Brockton. One mile contracted for, no work done as yet. Grade 2.5%.

MIDDLEBORO; road from Middleboro to base of the "Cape." One mile laid out, no other work done.

HINGHAM; road from Boston southward. One and one-half miles laid out, width twenty feet, one mile graded. Grade 5%.

BRISTOL COUNTY.

FAIRHAVEN; road from New Bedford to Cape Cod at the Narrows, part of the Mattapoissett and Marion roads. One mile contracted for, crushed field stone to be used, 500 feet graded. Grade 4%.

WESTPORT; Fall River to New Bedford, road in bad condition. Two miles contracted for, ledge rock to be used, no work done.

NORTH ATTLEBORO; Boston to Providence. One mile laid out, broken field stone, 1958 feet graded. Grade 1.4%.

ESSEX COUNTY.

GLOUCESTER; north shore of Massachusetts bay. One mile of road to commence at Manchester line, local field and ledge rock, no work done. Grade 5%.

MIDDLESEX COUNTY.

ASHBY; from Fitchburg to New Hampshire. One mile constructed, field stone, cost of grading considerable. Grade 4.8%.

NORFOLK COUNTY.

WALPOLE; road from Dedham to Rhode Island line in bad condition. Three-fourths of a mile graded, local conglomerate stone. Grade 3.35%.

WRENTHAM; continuation of the foregoing highway. One mile laid out and contracted for, field stones, 3000 feet graded, 800 feet covered with broken stone. Grade 3.6%.

WORCESTER COUNTY.

FITCHBURG; road from Fitchburg through Athol and Orange to Connecticut valley. One-half mile built, width fifteen feet, material, trap rock from Waltham; first state road completed, being submitted for acceptance Nov. 29, 1894. Grade .47%.

WESTMINSTER; continuation of foregoing way. One-half mile laid out, width fifteen feet, changes in bridges required, work suspended by winter. Grade 1.87%.

LEICESTER; highway from Worcester to Springfield, in Cherry Valley. One mile laid out, width twenty feet, field stone, 3000 feet graded, 2200 feet covered with crushed stone. Grade 4.6%.

HOLDEN; road from Worcester to towns north and west. One mile laid out, width fifteen feet in parts, some parts eighteen feet, field stone, all graded and one-half mile completed. Grade 5%.

HAMPDEN COUNTY.

WESTFIELD; road from Springfield to Pittsfield. One and one-fourth miles laid out, width eighteen feet, stone from West Springfield quarries, nearly completed.

RUSSELL; continuation of the same road, laid out in sections, known as "Fairfield" and "Huntington" respectively. Fairfield portion, one and one-half miles, width fifteen feet, graded one-half mile. Huntington section, 3000 feet, same width, trap rock from West Springfield, difficulties on account of Westfield river, grading completed. Grade 5%.

MONSON; old turnpike from Palmer to the Connecticut line. One mile laid out, no work done.

HAMPSHIRE COUNTY.

NORTHAMPTON; road from Northampton to Amherst through Hadley. One-half mile laid out, width twenty feet, ledge rock, completed. Grade 1.25%.

HADLEY; continuation of the foregoing. One-half mile laid out, grade raised on account of proximity of the Connecticut river, delayed by winter. Grade 3.2%.

GOSHEN; road from Connecticut river to hill towns, road relocated to reduce grade. One mile laid out, grading and draining nearly completed. Grade 5%.

GRANBY; road connecting Granby with towns on east side of the Connecticut. Three-fourths mile laid out, width fifteen feet, trap rock from Salem quarries. Grade 2.7%.

FRANKLIN COUNTY.

BUCKLAND; town road from railroad station leading to Shelburne; 800 feet laid out, width eighteen feet, broken stone from Waltham quarries, work finished. Grade 3.72%.

SHELburne; road connecting with the last described. One mile laid out, broken boulders from the bed of Deerfield river; width eighteen feet. Grade 1.5%.

ORANGE; main east and west road in northern part of the state, other parts of which have been mentioned under the heads of Shelburne, Westminster and Fitchburg. One mile laid out, width fifteen feet, no work done as yet. Grade 5%.

BERKSHIRE COUNTY.

PITTSFIELD; part of the east and west way through the central part of the state, other parts described under Leicester, Westfield and Russell, from Pittsfield towards state line. One mile laid out, width fifteen feet, trap rock from West Springfield, nearly one-half of this road completed. Grade 4.25%.

LEE; road connects Lee, Springhaven and Becket with the way up the Westfield valley. One mile laid out, hardened way, width twenty-one feet in villages, a distance of 770 feet, the remainder of the way eighteen feet. Ledge (quartzite) in neighborhood, 3300 feet graded, one-quarter of a mile covered with broken stone. Grade 2%.

GREAT BARRINGTON; a part of the north and south road through the Housatonic valley. One mile laid out, trap rock from Meriden, Conn., 3600 feet, width eighteen feet; remainder, fifteen feet, half finished. Grade 3.6%.

NORTH ADAMS; part of the Fitchburg, Westminster, Orange and Shelburne roads. One section contracted for, width eighteen feet, trap rock from Waltham quarries, work not begun. Grade 2.5%.

Broken stone used in construction, delivered at railroad sidings, costs from \$1 to \$1.70 per load. Seventy-four cities and towns own one or more stone crushers.

EDUCATIONAL FACTS.

In the majority of Massachusetts towns, the school year begins with the financial, or just after the annual town meeting; with cities, the beginning is the first of January, consequently these data are for 1893-4. During this year, the Commonwealth has expended for all school purposes \$9,968,227.28, an average of \$24.90 for every child of school age in the state.

There have been employed 1009 male and 10,705 female teachers; the former receiving an average of \$129.41 per month, the latter \$47.91. Of these teachers 4222 had attended and 3575 were graduates of Normal Schools. There are in all 7833 schools. The number of different pupils in the schools during the year is 400,609; the average attendance 299,069. There are 255 high schools having 30,540 pupils. The salaries of principals foot up \$335,044.23. School supervision by school committees has cost \$113,038.77; by superintendents \$186,856.64.

Free text-books have cost \$581,684.57; transportation of pupils has cost \$63,617.68; new school houses \$432,542.85; alterations and permanent repairs \$274,684.13; ordinary repairs \$460,745.99.

There have been maintained 285 evening schools, with 1194 teachers, an aggregate of 32,919 pupils, averaging an evening attendance of 17,420. These schools have cost \$171,544.57.

In the amount expended for each child, Nahant leads the list with \$42.11, while Gay Head foots it with \$3 per pupil.

Oakham has 81 children of school age, her average attendance is 111, making her percentage more than 1.37; another Worcester county town, Webster, foots the list with 1502 children and an average of 488, making the percentage .32+

ABANDONED FARMS.

The Legislature of 1891, chapter 280, authorized the State Board of Agriculture to collect and circulate information relating to abandoned farms. For this purpose \$2000 was appropriated. The first edition of the report was printed November, 1891; the second, January, 1892; the third, November, 1893. The number of farms thus reported as partially abandoned was 1461, but when data were sought from assessors of cities and towns, the number was reduced to 887. When a buyer or viewer set forth to secure such abandoned farms, he usually found a string attached to the same and the abandonment was not so complete as at first supposed. Latterly, the cry of "Abandoned Farms" has pretty nearly disappeared.

PROBATION OFFICERS.

By an act of the Legislature of 1891, approved May 28, the Justice of each Municipal, Police, or District Court shall appoint one person to perform the duties of Probation Officer. In Boston the appointment is made by the Chief Justice of the Municipal Court and he may also appoint not to exceed three (amended in 1892, to read five, one of whom shall be a woman) assistants. The duties of these officers are to inquire into the nature of every criminal case before his court and, at his discretion, to recommend that any person, convicted by said court, shall be placed on probation. The compensation of Probation Officers is determined by the appointing Judge, subject to the approval of the County Commissioners, and paid from the treasury of the county. In Suffolk county, Commissioners of Public Institutions act,

GYPSY MOTH.

No insect in Massachusetts ever created half the disturbance that this object has excited in the last five years. The first official mention of the *Ocneria dispar* is in June, 1891. In this report, it is stated that the Hon. Wm. R. Sessions, Secretary of the State Board of Agriculture, sent to the Health Experiment Station, June 27, 1889, several caterpillars with a request to know what they were and how they might be destroyed. Mr. John Stetson had taken these to the Secretary's office from Medford. Mr. C. H. Fernald, in charge of the Station, states that records are found in 1870, of the introduction into New England of a certain owlet moth, by a Massachusetts entomologist. It is claimed that this entomologist was Mr. L. Trouvelot, then living near Glenwood, Medford, but now (1891) in Paris. He sought to raise silk worms and imported European species for this purpose. In his efforts to cross his varieties, these moths were brought to this country and escaped. They became acclimated and, in time, a terrible scourge. Thus far they have ravaged largely the eastern part of Middlesex county, particularly the towns and cities of Medford, Malden, Everett, Arlington, Melrose, Somerville, Cambridge, Chelsea, Stoneham, Winchester, Belmont,

Saugus, Revere, Lynn, Lexington, Swampscott, Wakefield, Burlington and Charlestown.

In 1890, March 14, the Legislature provided for a Commission of three discreet persons to look into its habits and to provide for the destruction of the moth, and appropriated \$25,000 for this purpose.

In this year, 1891, the Legislature passed an act, providing for the destruction of the pest, and to this end \$50,000 was appropriated. In 1892, a further appropriation of \$75,000 was made. In 1893, the appropriation was \$100,000. In 1894, another appropriation of \$100,000 was made; very likely that for 1895 will be no less.

In 1891, March 12, Mr. E. H. Forbush of Worcester, was placed in charge of the field work, with Prof. C. H. Fernald as entomological adviser, and from that time to the present, the work of destroying has progressed with varying degrees of success. During the year, 1891, the smallest number of men employed was sixteen; the largest, 238. In 1892, the minimum number was thirty-one; the maximum, 234. In 1893, the range was from none, March 13 to 18, to 151, July 24 to 29. In 1894, the minimum number was fifteen; the maximum, 275; May 2 to 9, 15; July 9 to 14 and 23 to 28, 270; August 27 to September 1, 15.

As to the success of the scheme of destruction, opinions vary: some saying that as long as appropriations can be obtained, there will be moths to be destroyed; others claim that the plan is accomplishing all that its advocates claimed.

BUSINESS.

BUSINESS MEN Do not usually advertise unless they have something to talk about. F. S. BLANCHARD & Co. are persistent advertisers.

A BUSINESS MAN should have printing in harmony with his business. He is "sized up" by the printing he uses. Don't use poor printing at any price. Good work costs no more when done by F. S. BLANCHARD & Co.

PRINTING IS A FINE ART. 'Tis no longer possible to suit the exacting demands of various businesses and callings, except by a well equipped and complete office. F. S. BLANCHARD & Co.'s facilities are unsurpassed for varieties of type, excellent and labor (money) saving machinery, and masterly treatment of every job entrusted to them.

There Are Lots of Printers, but not all know how to print. Poor type, poor styles, poor taste, cheap ink, and improper selection of paper, stamp the brand of inferiority on a great deal of printing. F. S. BLANCHARD & Co. do good printing, quick printing, and pay personal attention to details.

CATCH THE IDEA ? F. S. BLANCHARD & Co. are cheap printers, but do not do cheap printing. They want your printing, and will give good work, prompt service, and prices that mean true economy.

THE NEW STATE HOUSE,

OR THE STATE HOUSE EXTENSION.

This project was begun in 1888, May 17, by an Act taking land north of the old structure and furthered by an Act, May 25, 1888, empowering the Governor and Council to report to the next Legislature a plan for the better accommodation of the State Government in the city of Boston. In 1889, an appropriation of \$2,500,000 was made, and Messrs. John D. Long, Wm. Endicott, Jr., and Benj. D. Whitcomb were appointed Commissioners. Messrs. Brigham & Spofford of Boston were appointed architects. Since 1892, Mr. Charles Brigham has been sole architect. The builders have been the Norcross Brothers of Worcester. The corner stone was laid December 21, 1889. The first permanent occupants were the department officers of the Grand Army of the Republic, who entered Feb. 3d, 1894.

The original plan contemplated an edifice extending from Derne street on the North to the old Bulfinch structure, completed in 1798. To join this an arch has been thrown over Mt. Vernon street. Hancock street is on the West and Temple on the East, though all the buildings between that and Bowdoin street have been removed, thus providing for a State House Park. The edifice is built in Colonial style, of yellow brick with white marble trimmings, having a granite foundation. Of floors, there are the sub-basement, basement, 1st, 2d, 3d, 4th and 5th. The extreme length of the structure from Derne street to the old Capital is 397 feet, width 212 feet. The cost of land was \$1,243,225.66; Jan. 1st, 1895, the building had cost \$2,173,480.66.

In the sub-basement are found the rooms of Major Rufus R. Wade and his State Detective Force, etc. On reaching the first floor that fact is indicated in numbering the rooms, all of which are variations of 100. On the second they pass to 200, etc.; the third to 300, and the fourth to 400, etc.

Departments and Committees of the Legislature are assigned as follows:

SOLDIERS' HOME.

Massachusetts cares well for her indigent and disabled veterans. The home for such is located in Chelsea, and was opened July 25, 1882. Up to June 30, 1894, there had been admitted to the home 2053 veterans. Since the opening 302 have died. The oldest inmate June 30, 1894, was 87 years old, the youngest 46 years. Total number of inmates June 30, 1894, was 239. Deaths during the year 43. The state makes an annual appropriation of \$30,000 for maintenance; the remaining cost is covered by the kindness of individuals. The largest donation was that of Capt. Jos. B. Thomas of Charlestown in 1881, who gave \$10,000. The president of the Board of Trustees is Capt. J. G. B. Adams of Lynn. The superintendent is Capt. Geo. W. Creasy of Salem, the matron, Mrs. Geo. W. Creasy.

CITY REGISTER.

EXPLANATIONS.—The population figures given are based on the census of 1890.

The design has been to give the politics of all city officers elected by direct vote of the people, and where none is given it is because party lines are not observed in municipal elections, as is the case in several cities.

The number of voters is of those actually registered at the last election.

Under Hotels, the rates are per day for transient guests.

The (*) indicates both Justice of the Peace and Notary Public; N. P. means Notary Public *only*.

CULTIVATED AREA.

Massachusetts has 5,155,000 acres of land. Of this area, 1,657,000 acres are under improvement in farms, being 32% of the entire surface. Of the New England states, Maine has only 15% under cultivation: New Hampshire, 20%; Rhode Island, 39%; Connecticut, 44%, and Vermont, 45%. It would seem that over-population is not immediately impending. New York and Maryland cultivate 54% of their area, while Ohio, Illinois and Iowa lead in this respect with 71%. The state with the least improved surface is Arizona, which foots the list with only one-tenth of one per cent., and New Mexico is not much better, having only three-tenths of one per cent. The whole western Rocky mountain region, including Idaho, Nevada, Utah and Arizona reaches only .007%. The average for the United States is 18%. The total acreage is 1,900,800,000; improved, 357,616,000.

STATE AID FOR INDIGENT SOLDIERS AND THEIR FAMILIES.

Since 1861 to Jan. 1, 1895, Massachusetts had dispersed \$22,492,314.43, a record for which the state may well be proud. The maximum state aid for widows is \$4 per month. In 1894 there was paid out for state and military aid \$565,746.94; for the burial of soldiers and sailors, \$6060.73; special laws, \$1668; Soldiers' Home, \$30,000. It is probable that an equal showing cannot be made by any other state in the Union.

Waverley BICYCLES.

ARE THE HIGHEST
OF ALL
HIGH GRADES.

Warranted Superior to any Bicycle
built in the World, regard-
less of Price.

Read the following opinion of one of
the most prominent American dealers
who has sold hundreds of these wheels :

RICHMOND, Va., Oct. 2, 1894.

Indiana Bicycle Co., Indianapolis, Ind.:

Gentlemen: The Waverley Scorchers and Belle came to hand yesterday. We are afraid you have sent us the high-priced wheel by mistake. You can't mean to tell us that this wheel retails for \$85? We must say that it is, without exception, the prettiest wheel we have ever seen, and, moreover, we have faith in it, although it weighs only 22 lbs., for of all Waverleys we have sold this year and last (and you know that is a right good number), we have never had a single frame nor fork broken, either from accident or defect, and that is more than we can say of any other wheel, however high grade, so called, that we sell. We congratulate ourselves every day that we are the Waverley agents.

Yours truly,

WALTER C. MERCER & CO.

Are you looking for the best
Bicycle that money will buy, or do
you want to spend the most money
you can, with the expectation that
price makes the wheel? If the
former, buy a Waverley.

High Frame, Wood Rim, Scorchers,
Weight, 22 lbs., \$85.

Steel Rims, G. & J. Tires, 25 lbs., \$85.

Regular Frame, same weights, \$85.

Ladies' Drop Frame, same Weights
and Tires, \$75.

Ladies' Diamond, Wood Rims,
Weight, 20 lbs., \$75.

The Science of Accounts

Treats of the relations between owner and property, including the elements of Political Economy. It underlies the forms for showing these relations and making them profitable to the owner. Unfortunately this branch of study is omitted in School and College.

BOOK-KEEPING

As usually taught in commercial books and schools gives youth the simpler forms of accounts in common use in stores and shops, but does not make them accountants.

EVERY BUSINESS

Should have the best accounts for its control ; also have them audited, at least yearly, by a scientific expert, as the best safeguard against incompetence or dishonesty.

GRADUATES OF COLLEGE,

Technical, Normal or High School will find this study a profitable addition to all previous learning. Bright book-keepers should be ambitious to learn higher accounting.

THE SUBSCRIBER

has developed, by long study and practice, unique and comprehensive methods of service and instruction.

Communication solicited from firms, corporations and students throughout the country.

LEWIS C. MUZZY,

Fellow of the Institute of Accounts,

SCIENTIFIC SPECIALIST IN ACCOUNTS, AUDITOR AND TEACHER,

John Hancock

Mutual Life Insurance Co.

JOHN HANCOCK BUILDING, BOSTON.

NEW INSURANCE WRITTEN IN 1894, \$40,046,617.00.

In January, 1895, the Company was examined by a committee of policy holders and by the Insurance Commissioner of Massachusetts, verifying the above figures.

The INSURANCE COMMISSIONER'S report shows the following gains since his last examination in 1892 :

Increase in Surplus,	-	-	-	\$213,229 62
Increase in Gross Assets,	-	-	-	2,291,663 39
Increase in Income,	-	-	-	1,617,706 78
Increase in Outstanding Insurance,				34,040,446 00

THE POLICY HOLDERS' COMMITTEE SAY :

"We feel amply justified in expressing the opinion that the Company is conducted with a high order of integrity and ability, and that the interests of the Policy Holders are carefully guarded and secured. We congratulate our fellow Policy Holders upon the fact that, notwithstanding the financial depression through which the country has been passing, the Outstanding Insurance, the Ledger Assets, and the Premium Income have amply increased during the past year."

ALERT.

ABLE.

OUTSPOKEN.

The Watchman.

Every Baptist Family in New England Should Read
The Watchman.

You will not always agree with what it says. It would not be worth much if everybody agreed with it; but

Intelligent Baptist cannot afford to be ignorant of what it says. It is recognized by the Press of the country as the alert and most fearless exponent of Baptist views.

It has recently discarded the blanket sheet, and adopted a handsome magazine form of thirty-two pages.

WHAT THE PRESS SAY:

The Boston Herald.

THE WATCHMAN has been slow to change from a "blanket sheet" to the quarto form. The result, now that it has taken this shape, is a paper which is among the most attractive of the weeklies which come to this office. Its page is well leaded; its type is new, and there is a sharpness and crispness and an amount of good work in it, which exceeds anything that it has formerly done. Its short paragraphs, its editorials, its correspondence and its contributed articles are of a high order, and its editorial make-up is excellent. It is seldom that a religious paper in changing to a new form has made more improvements or brought itself closer into touch with the people for whom it is designed.

The New York Observer.

Our bright Baptist contemporary, THE WATCHMAN, of Boston, comes in new shape, its pages being reduced

in size and multiplied in number in accordance with the fashion among religious newspapers. Our contemporary is as full as ever of good things. New England Baptists could scarcely keep house without THE WATCHMAN. It has done much for the cause it so ably presents.

The Advance.

THE WATCHMAN, now in its seventy-fifth year, the Baptist Family Paper published in Boston and edited by Mr. Geo. E. Horr, Jr., comes into line this week with the rest in the adoption of the magazine form. THE WATCHMAN is a paper with very high ideals of religious journalism. While wholly and earnestly loyal to the distinctive tenets and to all the common enterprises and interests of its own denomination, its free and intelligent outlook upon the affairs of the churches of other names is characterized by a most admirable candor and courtesy.
